

The ACEP Emergency Quality Network (E-QUAL): The Acute Care Transformation Movement Takes Off!

Mission

The Emergency Quality Network (E-QUAL) engages emergency clinicians and leverages emergency departments to improve clinical outcomes, coordination of care and to reduce costs.

E-QUAL Recruitment Base Year

Enrollment

Emergency Quality Network (E-QUAL), the American College of Emergency Physicians (ACEP) SAN is supporting the TCPI engagement goal by recruiting 24,000 Emergency Department (ED) clinicians. E-QUAL initially focused on developing relationships with large emergency medicine groups resulting in the enrollment of 986 EDs across the U.S. with 12,584 individual

173 Completed the E-QUAL Quality Readiness Assessment

- 16% Critical Access
- 14% Rural
- 6% Safety-net
- 97% Hospital Based / 3% Free-Standing

EDs engagement in quality improvement activities focused

Metrics

E-QUAL designed a quality improvement readiness assessment which helps EDs uncover their readiness for alternative payment models while also helping E-QUAL understand the current and future use of QI strategies for focused practice transformation around sepsis outcomes, reducing avoidable imaging and reducing chest pain hospitalizations.
